

VenturePlanet Importers
is proud to present:

Podere Riosto is a winery located in the Colli Bolognese (Hills of Bologna) outside of Bologna in the Emilia Romagna region of Italy. Owned and operated by the Galletti family for three generations, Podere Riosto produces reds and whites using some of the most iconic and unique grape varieties found in the region, including Pignoletto and the extremely rare Fantini grape. Additional wines produced across its DOC-designated vineyards include Barbera, Chardonnay, Cabernet-Sauvignon and Merlot. The soil in the Colli Bolognese is composed of sand (50%), lime (25%) and clay (25%) and was created during the Pliocene age. All harvest is done by hand.

About VenturePlanet

At VenturePlanet, we believe in identifying, sourcing and importing wines typical of Italy's diverse wine-growing regions. We strive to represent smaller producers whose high standards and rich traditions are showcased in their unique wine offerings. For us, every bottle is an opportunity to tell a story. We make it a priority to get to know the people behind the wines in efforts to maintain the distinctive voice of its producers.

VenturePlanet is proud to be the importer of choice for Podere Riosto's unique and exceptional line-up of red and white wines. As a result of a long-term relationship dating back to 2011, we are thrilled to be able to offer Podere Riosto's unique wines available to the U.S. consumer.

Fantini by Podere Riosto

The Fantini grape varietal was discovered in 1961 by Luigi Fantini, a Bologna-based explorer, researcher and naturalist. In surveying the hills of Pianoro, Fantini stumbled across a large vine wrapped around an elm tree. The vine, almost 15 inches in diameter, had seemingly survived the devastating phylloxera epidemic in the late 19th Century responsible for mass extinctions of indigenous vine varietals throughout Europe.

In 2000, Podere Riosto used grafting techniques to bring back the Fantini grape for its wine production. Today, Podere Riosto remains the world's only producer of this indigenous and ancient grape varietal. Fantini grapes produce a medium-light wine with a unique aromatic profile of delicate floral aromas and notes of red fruits and black cherry. The wine is ruby-red in color, exhibiting violet reflections. It pairs well with salmon and white meat fish, light chicken and pork dishes, firm cheeses and salads.

We hope you enjoy this truly one-of-a-kind wine from Italy's gastronomic epicenter.

Technical Sheet

Pignoletto Frizzante

Vineyard Characteristics

Area: 13.3 acres

Altitude: 280-350 meters a.s.l.

Exposure: South-Southeast

Plant Density: 8,300
grapes/acre

Soil Composition:

Pliocene Sand 45%, Limestone
25%, Clay 30%

Growing System:

Espalier with Guyot

Vinification and Aging

Yield: 3,750 kg per acre

Harvest Time: mid-September

Harvest: by hand in 17 kg
baskets

Fermentation: in steel vats
(18/19°C) for about 10 days and
final tangential filtration

Aging: 3 months in steel vats
(Charmat method)
